

Accelerate Your Destiny

Session 3~ Planning Strategically Homework

1) Get Clear

What is the ideal life I would like to have?

If I had exactly the life I want, when I close my eyes, where am I living? what am I doing? What am I wearing?

Who (what type of person) do I want to be spending my time with?
Do they encourage me to be my best or are they subtly keeping me in their comfort zone by throwing doubt disguised as concern, saying things like, “ I just don’t want you to be hurt, when “it” doesn’t happen the way you think it will.”

Why do you want to live this particular kind dream?

Who are you going to serve?

What value are you providing by doing what you want to do?

2) What are your short term priorities?

Ask yourself this for all of the fundamental areas of True Abundance, Faith, Finances, Fitness and Health, Family and Relationships, Foundation.

What are the top 10–12 outcomes I would like to achieve at the end of the next 12 months. Evaluate this in all areas of True Abundance
Faith, Fitness, Finances, Family, Foundation

How will I measure the success of each of these priorities?

3) Take Focused Action

Create an action calendar for the year.

Make a list of the specific tasks to be completed

Do my actions support my calendar and the goals and priorities I have made.

What do I have to STOP doing to make progress on my priorities?

4)Leverage My Time

What tasks need to be done that are not a good use of my time?

What are my bottle neck areas?

What new system or process can I create to make this easier?

What is my outsourcing plan? Who can do the job better and faster than me? What will it take to afford them?

What is my leverage wish list?

5)Maintain Your Momentum

Am I committed to my dreams and goals?
